

8000+ surgeons  enrolled from **96** countries

Free and available for everyone | CPD points available | Look for regular updates via email

Hernia U is the only virtual global hernia platform where surgeons from around the world can instantly access numerous courses and tools to further their Hernia education. It offers several courses and tools to include:

Hernia A to Z Fundamentals

Our first online course consisting of 8 modules and 2 live surgeries that cover the essentials in Hernia Surgery for both ventral and inguinal—now offered in both English and Spanish.

Hernia A to Z Advanced

The next course after Fundamentals consisting of 5 modules and 2 live surgeries where our faculty will be sharing challenging cases with their best practices

Hernia U Live cases a month each in a different location with a globally respected KOL, these broadcasts are an opportunity to both learn and interact with colleagues through our moderator and chat box.

Video Library We have been recording past LIVE broadcasts and store them here so our surgeons can return and learn about our products from the industry leaders.

Hernia U Podcasting We have interviewed some of our global KOLs learning more on why they do what they do.

We are committed to bringing you the most up to date education from the best faculty in the most dynamic format throughout Hernia U.
